

Solutions tailored to your business

Ecochoice deliver special timber solutions to the construction industry across the UK.

Contact us for the widest range of:

- Timber species
- Colours
- Dimensions
- Treatments

All our timbers can be delivered to site with independent FSC® or PEFC™ certification. Depending on your project's details, we can also offer design and fitting services.

You'll find them in products and projects such as:

- Decking and joists
- Cladding
- Landscaping
- Footbridges
- Rail works
- Piers and Marinas
- Fencing
- Horse stables
- Public street furniture
- Hand rails
- Piling
- Sea defence
- Fenders
- Glulam
- Lock gates
- Beams and sleepers
- Groynes
- Timber frames
- Post and beam
- Pergolas
- Barrels
- Stairs
- Flooring
- Windows
- Doors
- Architraves, skirting, spindles and other mouldings

Matching Species to Projects

If you know the timber species you want, that's great. If not, we are happy to advise on appropriate species that will make your project stand out in terms of beauty, sustainability and natural durability.

Species include:
